Things To Do

Wheels that sent educators into a spin will be on display here during the second half of September. The show is the Mercedes Benz child art exhibit Youth, Paint, and Cars, selected from 28,000 entries submitted to Daimler-Benz. About 100 winning entries begin a North American tour in Victoria September 17 under the auspices of the Mercedes Benz Company and the International Society for Education through Art. PROFESSOR WILFRID JOHNS (education) has arranged for showing in the MacLaurin lobby until September 30.

HUGH CHAMBERLAIN (personnel) of the badminton club asks faculty and staff to dust off their shuttlecocks in time for the club's first session of the term on Tuesday, September 23. Skilled and unskilled meet in the gym at 8:00 p.m. Those who are short of shuttlecocks may have these provided for a mere 25 cents (refreshment included).

The faculty of fine arts offers its first noontime concert of the season September 23, when the Victoria Trio will play Beethoven's Archduke Trio. The free Tuesday concerts are in MacLaurin 144 at 12:30 p.m.

Armchair travellers and those planning to attend the world's fair in Osaka next year should enjoy a lecture-series on Japanese society offered by the evening division. Co-ordinator of the series, which starts September 25, is DR. HENRY WARKENTYNE (linguistics). Details are available from MRS. JANET SENIOR at 395.

No Master Points are needed for admission to the bridge club -- at some tables, they might even be a disadvantage. DAVID DUNSMUIR (information services) reminds players old and new that the club will start shuffling at 8:00 p.m. September 26 in the faculty centre. Advance notice is a boon to planners.

On-campus lectures sponsored by the University Extension Association begin this year with a group on university topics. Next speakers are Mayor Hugh Curtis of Saanich (October 6), DR. BRUCE PARTRIDGE, the University's new president (October 27), and FREDERICK EDELL of fine arts (November 17). The evening division (395) has more information.

Faculty/Staff News

DR. D. R. LYCAN (geography) presented a paper on migration factors at the annual meeting of the Association of American Geographers at the University of Michigan last month. Other geographers on the move were DR. C. N. FORWARD and DR. HAROLD POSTER, who attended the Canadian association's meeting in St. John's Newfoundland, and DR. DERRICK SEWELL. Dr. Sewell took part in an Alaska science conference as panellist on behavioral responses to northern development.

The latest military work by DR. R. H. ROY (history) traces the history of the Seaforth Highlanders of Canada from 1919 to 1965. It was published during the summer by Evergreen Press of Vancouver.

DR. IAN WALKER (education) has moved to a new faculty from the department of chemistry. As a member of the science education group, he will initiate a science course for students that intend to become teachers of new programs in elementary schools. In late August, Dr. Walker attended the 22nd Congress of the International Union of Pure and Applied Chemistry in Sydney, Australia. He also visited research centres in Melbourne and Adelaide to discuss science education, organic photochemistry, and forest-fire research.

Data on water pollution were presented by DR. ALAN AUSTIN (biology) to the 11th International Congress at the University of Washington last month. Dr. Austin and student Sharon Brown gave a paper on the ecology of algae of Vancouver Island lakes, with emphasis on monitoring from Elk Lake.

DR. R. N. O'BRIEN (chemistry) presented papers on laser interferometry at Birmingham and London, addressing international conferences of chemists and chemical industries. He was recently elected Fellow of The Chemical Institute of Canada.

A postcard from Putney reveals that PROFESSOR ROBIN SKELTON (English) is still creating. Now on sabbatical in Europe, he has been broadcasting on Irish radio and gave several poetry readings in Dublin. This summer saw the publication of three books, including a new collection of his poetry under the title An Irish Album.

Faculty/Staff News

MRS. DIANA CALEB (student housing) has a bastion of babysitters on call now that the residences are full again. Craigdarroch numbers are 477-3034 and 477-4523. Lansdowne telephones are not yet installed

The United Red Feather-Red Cross Appeal is looking for 2,500 volunteer canvassers, says fund-drive chairman PETER DARLING (computing centre). Offers of aid would be welcome. The target for the campus is \$14,300, an increase of \$3,900 from last year. Mr. Darling reports this has been "accepted as a realistic target" by campus representatives HUGH CHAMBERLAIN (personnel), NELS GRANEWALL (admissions), and DR. HUGH FARQUHAR (summer session). They'll be in touch.

DR. LYLE ROBERTSON (physics) will present a paper on the TRIUMF nuclear accelerator at the International Conference on Cyclotrons to be held next week in Oxford, England.

Among the Canadian delegates at two conferences just ended in Spain were DRS. H. W. DOSSO, H. M. SULLIVAN, and J. T. WEAVER (physics). Sessions were held in Madrid by the International Association of Seismology and Physics of the Earth's Interior and the International Association of Geomagnetism and Aeronomy.

A professional development diploma -- only the third ever to be earned by a Victoria purchasing agent -- was awarded this summer to WARREN DAVIDSON (purchasing) by his national association. Presentation of the diploma followed an examiners' meeting in Banff.

DR. JOE KESS (linguistics) spent July and August in Yugoslavia, where he attended a seminar on the Slovenian language, literature and culture, and meetings for Slavic scholars.

The McPherson Library has opened up in all directions. Weekday hours are 8:00 a.m. to 1:00 a.m.; on Saturdays, hours are 8:00 a.m. to midnight, and on Sundays noon to midnight.

Moves within the campus take four academic departments to the recently opened section of the Sedgewick Building. Now among the trees are the departments of classics, Hispanic and Italian studies, philosophy, and Slavonic and Oriental studies. In Hut "N", the department of linguistics has been reorganized under the new chairmanship of PROFESSOR JEAN-PAUL VINAY.

ART SAUNDERS, superintendent of buildings and grounds for the past seven years, has been named engineering consultant to the University. His office is now in Hut "K", room 1 (telephone 456).

A newcomer to the president's office is JAMES E. CURRIE, who became executive assistant to the president this summer. He holds the degree of Bachelor of Commerce from UBC, and that of Master of Business Administration from McMaster University, Hamilton (Ont.). After gaining six years' experience in industrial management, he joined UBC's continuing-education staff in 1963. He left the dual post of director of continuing education in business and management, and administrative assistant to the dean of commerce and business administration.

The computing centre now has a communications centre. All calls should be routed through the new central switchboard, reached by calling local 431.

DR. RODNEY SYMINGTON (Germanic languages and literature) spent the last few months in East Berlin, where he carried out archival research on the life and works of playwright Bertolt Brecht.

DR. SAM MACEY (English) has become a Fellow of the Institute of Work Study. His dissertation, Studying with Method, applies the principles of industrial engineering to education.

DR. GEORGE CORWIN (music), just appointed to the faculty of fine arts, will conduct the opening concert of the CBC Music Festival in Vancouver this Tuesday. He leads the orchestra in orchestral works and cantatas by J. S. Bach.

Faculty and staff are reminded that the mail room -- now in Hut "L" -- has resumed Saturday hours, and that weekend mail can be picked up from 8:00 a.m. to noon. Weekday hours are 7:30 a.m. to 5:00 p.m. MRS. EDNA KOWALCHUK, mail service supervisor, guarantees that any material received by 5:00 will be mailed on the same day.
